

Name: _____ Advisory: _____ Group: _____

Planning Your Zentangle:

- 1. Create 3 different designs using the elements of art and principles of design.
- 2. If using simple shapes find a way to make them interesting like using positive and negative space.
- 3. You can refer to your warm ups for ideas. We have done lots of zentangle patterns this year.

Think about:

Line	Shape	Pattern	Emphasis	Value	Texture
Balance	Contrast	Color	Movement	Space
